

Le Ossidiane

Le Ossidiane

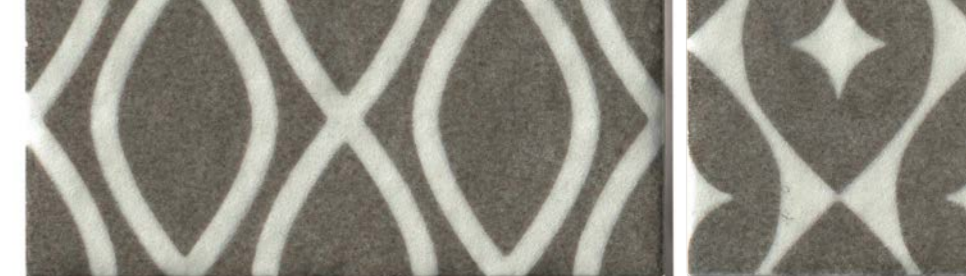

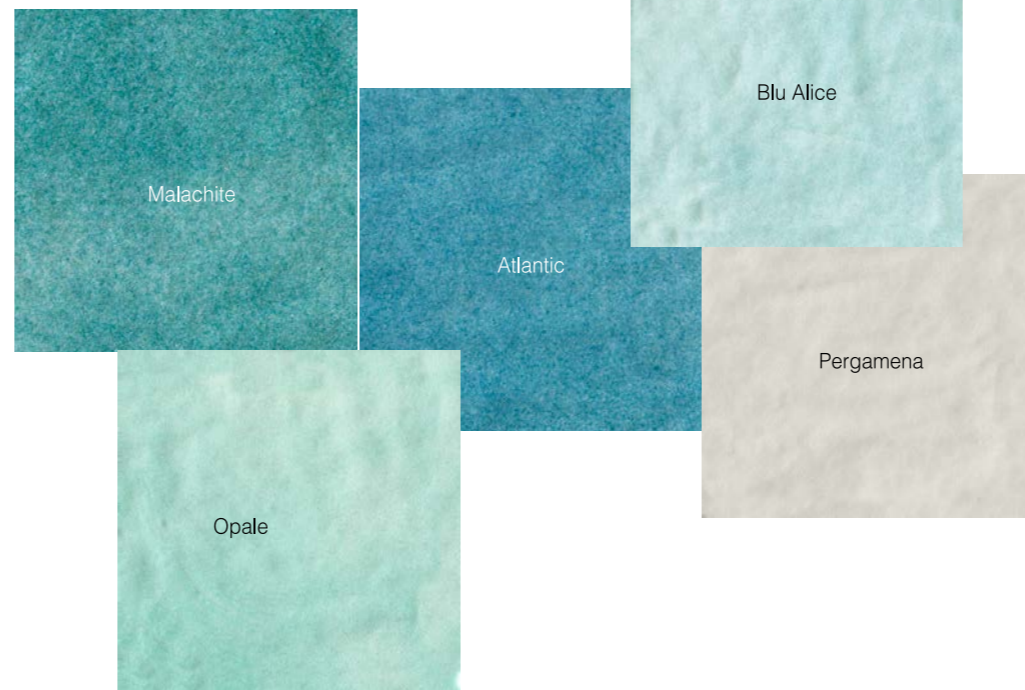

Clear contrasts, surfaces that evoke coastal landscapes covered in lava, refined decorations in the 20x20 format, interacting between parchment and bronze: a contemporary style that stimulates well-calculated creativity and a taste for composition that is attentive to fashion and design. Ideal for covering both internal and external ambients.

Ideale per rivestire ambienti sia interni che esterni.

Valencia, Spagna

The eclectic personality of the owner, a well-known television producer who is very attached to his Spanish roots, inspired the choice of the *Le Ossidiane* collection for his home in Valencia. Clear contrasts, surfaces that evoke coastal landscapes covered in lava, decorations interacting between parchment and bronze: a contemporary style that stimulates well-calculated creativity and a taste for composition that is attentive to fashion and design.
