Pietre Alpine 20 MM - RETT R11

Con la collezione Pietre Alpine si aggiunge un altro tassello di importanza al capitolo delle pietre. La padronanza della tecnica nella riproduzione delle materie naturali consente a SAVOIA di proporre un prodotto di assoluta bellezza per vestire l'ambiente esterno.

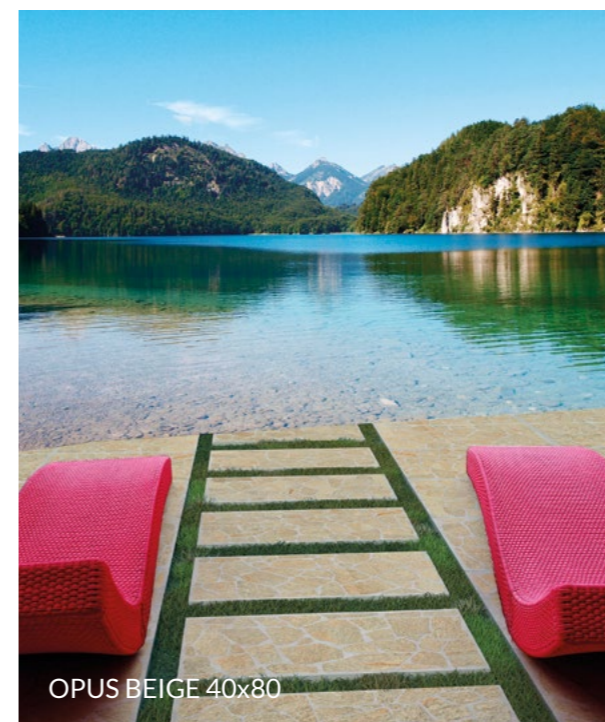

LESSINIA 40x80

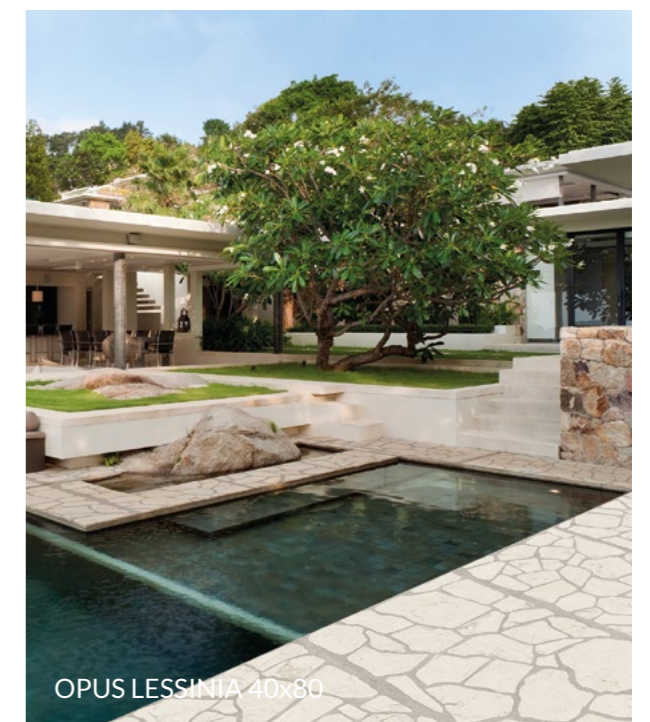

OPUS PORFIDO & LESSINIA 40x80

With our collection PIETRE ALPINE, SAVOIA pays tribute to the beautiful stones, often known as Quartzite of Barge. Stones derived from the mountains in the Municipality of Barge, in the Italian region Piedmont. Pietre Alpine comes in four natural stone colors and four different sizes. The versatility and great durability can be combined with any type of architectural style, from the most rustic to the most modern. Perfect for outdoor use, and not only!
